## **Life Protection**

**Life protection is an 'asset management plan'. In the event of your death, whether natural or accidental, the loan (lease) balance of your vehicle is paid off. It's just like home mortgage insurance. It ensures that your family or estate is not left with car payments, and may have the uninterrupted use of the car, without having to pay it off.**

## **Illness and Injury Protection**

**Illness and Injury protection is a 'payment protection plan'. In the event that you were unable to work due to sickness or injury, whether it happened on the job, at home or even on vacation, the payment protection will make your monthly payments for you.**

**This protection will continue until you return to work, and is paid regardless of other income. There is no income tax payable on it, it does not have to be repaid, and there are no limits to the number of claims during the life of the contract. Disability protection also protects your credit rating and ensures peace of mind.**
